

# Coronavirus - COVID-19 And Services at the Clinic

Dear patients,

As always, we are working to protect your health. Here is COVID-19 information you may find helpful:

- Please call our main line at 540-459-1700 if you feel you may have the flu, a cold, or Coronavirus. A nurse will return your call and schedule an appointment if needed.
- A specific block of time has been established for people who may be contagious. This helps us to serve others without exposing them to infections. There is still a lot of flu around!
- Unless you have a high fever, difficulty breathing and/or cough, AND have been in contact with someone who has COVID-19, the experts say you should care for yourself at home to better protect yourself and the community. If your condition continues to worsen for over a week, wherein you develop the problems above, you may need to go to the ER.
- None of the doctors' office in this area test for COVID-19, including us.

Information about other services:

- The dental clinic will be serving patients on a limited schedule and is focused on emergencies. Appointments for hygiene services and most fillings are postponed for the next few weeks.
- Always cancel dental appointments if you have cold symptoms or a fever, or someone in your family is sick. We will take your temperature upon arrival to assure that you are healthy.
- **Feeling stressed?** Our counselors have openings in their schedule. Call us to make an appointment.

Our community will get through this. We all need to do our part to avoid spreading the Coronavirus. We all appreciate any steps **YOU** take to help our neighbors stay safe and healthy!
